

Technical Documentation Style Guide

Version 2.1 - Updated March 2026

Output Requirements for Release Notes

- **Document Type:** Must be a standard DOCX file.
- **Tone:** Simple, direct, and highly technical. Avoid marketing fluff (e.g., do not use words like "revolutionary" or "flagship").
- **Mandatory Sections:**
 1. Executive Summary
 2. New Features & Limits
 3. API Changes
 4. Known Issues & Workarounds (Must list exact CLI commands if applicable)

Output Requirements for Tracking Matrix

- **Document Type:** Must be an XLSX file.
- **Structure:** Columns for Feature Name, QA Bug ID, Documented Section, and Technical Limit/Notes.
